

BILD Teaching Academy is set up to offer hands-on laser courses for dentists. BILD provide UK and international courses taught in English by renowned specialist dentists.

The UK hands-on courses are taught by **Dr Ahmad Nounu** and assisted by other clinical advisors. These courses are so popular, they are booked well in advance.

visit www.bildentistry.com or www.quicklase.com/laser-dentistry-training for further information or call Quicklase on **01227 780009** to book your place, alternatively email info@bildentistry.com.

Testimonials

For any one who is practising above average Dentistry, then the course on the use of the soft tissue Quicklase laser has got to be a priority.

The machine is exceptionally easy to use and the backup from the manufacturers is first class. The clinical results and the satisfaction of providing a high standard of care are worth the investment!... BILD laser hands-on

Dr Mahesh Patel

"A really great one.. succinctly delivered in a unique style and very enjoyable day that I took a lot away from!... BILD laser hands-on"

Dr Pinkoo Bose

"This 10 Watt soft tissue laser unit is the best that I have laid my hands upon. It is a part of my daily routine for multiple purposes.

I had a chance to try Sirolaser and Biolase with great disappointment when it came to the speed with which they functioned and the running costs."

Dr Nima Amin

"I agree with the feedback 98% excellent. The course was excellent, with a near encyclopaedic knowledge on the subject. All delivered with panache and a high level of entertainment. The hands on was great. It was full of genuinely useful information that would work in a general practice environment!... BILD laser hands-on"

Dr Luke Hutchings

"I didn't realise that there is so much more to a laser, and so many more uses than I imagined ... at the BILD laser hands-on"

Dr Gary Fossey

"One of the best pieces of equipment that I have bought. It's small and portable. I do not use the electrosurge anymore. Exceptional results every time. Great to have. You need one..."

Dr James Goolnik

"Honestly priced laser and it works. I love it for the gingival contouring. Buy it with confidence, great company, product and service..."

Dr Paymon Langroudi

"You can fine tune and get accurate impressions. No ancillary damage to surrounding tissue..."

Dr Jay Padayachy

"Very polished delivery from the first minute. Informative, interactive with all questions answered precisely, excellent hands-on, loads of tips to implement immediately in practice, GREAT DAY... BILD laser hands-on"

Dr Finbar Bryson

"This laser system fits in our high level high-end cosmetic aesthetic dentistry surgery. The company is second to none when it comes to service and support. A fantastic British built product..."

Dr Mervyn Druian

"It's a marketing as well as clinical instrument; lasers are the ideal cutting instrument for soft tissue. If you are interested in raising the profile of your surgery then buy a laser now. You will notice the difference..."

Dr Ashley Watson
